

Frequently Asked Questions About Emergency Evacuations

1. How can I prepare?

- Bring your keys, ID, and cell phone to classes and meetings.
- Know the name and number of the building you are in and use this information when reporting an emergency to Campus Safety or 911. White, 3-digit building numbers are located on the outside of each building.

2. What exit should I use?

Always use the closest exit to your location – this may not be the same exit that you regularly use to enter and exit the building.

3. How do I assist those with physical disabilities?

Individuals with physical disabilities who need assistance to evacuate should go to an area of refuge – usually the stairwell tower – and await assistance from emergency responders. If you know someone who needs assistance, notify campus safety and/or first responders immediately when they arrive on scene.

4. Can I use the elevator when the building alarm sounds?

Always use the stairs. The elevator will not work when the building alarm sounds.

5. Where should I go after I exit the building? Is there a specific location to report to?

Go to the designated assembly point for your building listed below.

6. When may I return to the building?

Return to the building when directed by Campus Safety or Facilities personnel.

BUILDING	DESIGNATED ASSEMBLY LOCATION
Myrin, Olin, Bomberger	The grassy area between Brodbeck, Wilkinson and Curtis dorms and Wismer Hall, closest to the brick pathway.
Pfahler, Thomas and IDC	The walkway in front of entrance to Pfahler Hall towards Myrin.
