

## Ursinus College Departmental Assessment and Review, 2013-2014

This year's annual review builds off of last year's change in format. We ask that you provide your departmental learning goals, which have likely been revised over the course of the year. We then ask for you to provide what changes and assessment projects have been completed over the course of the past year related to those goals. Finally, we ask for summaries of other activities, senior exit interviews, plans for assessment activities in the coming year, departmental goals, and student and faculty achievement.

### Annual Departmental Review

#### Department Learning Goals
