# THE EASIEST SCHOLARSHIP EVER!

Snap photo WIN $250 #MontcoAED

The Montgomery County Department of Public Safety and PulsePoint have teamed up to improve cardiac arrest survival rates in the County by creating a registry of automated external defibrillators (AED). An AED device is the only tool that can save someone in cardiac arrest.

Scholarship Opportunity

No applications. No essays. Just a #MontcoAED. Every month, one Montgomery County student (over the age of 16) will receive $250 for uploading the most AED devices (located in the County) to the PulsePoint registry. Our scholarship contest begins on November 1, 2017.

Register at GotAED.org to be eligible for the contest.

Upload AED photo, its surroundings, and location description. See photo above.

Download the PulsePoint AED App (it's the yellow one, not red one).

$250 Add the most AEDs in a month, and win $250.

PulsePoint
PulsePoint is a 501(c)(3) non-profit foundation that works with local public safety agencies to improve communications with citizens and off-duty personnel. By using location-aware mobile devices, they are empowered to help reduce the millions of annual deaths from sudden cardiac arrest.

GotAED
GotAED is an initiative of Simon's Fund. This crowdfunding site is dedicated to getting AED devices into places where kids learn and play. These facilities have smoke detectors and fire extinguishers; they should have AED devices too!
