Forensics Activities – Middle School

DNA Fingerprinting
Students use provided images of DNA fingerprinting gels to determine paternity and to match a crime scene sample to a suspect. Can be used as a stand-alone lab, or a follow-up after the Gel Electrophoresis lab.

*Biology Mobile Educator*

Faces / Forensic art
Students act as “eyewitnesses” and use a forensic art program to draw faces of suspects

*Biology Mobile Educator*

Gel electrophoresis: An introduction using food coloring
Students pour their own gels, load the gels with food coloring solutions, run the gels, and analyze the results

*Biology Mobile Educator*

Protein Identification through immunoassay
Students use an immunoassay to show how forensic scientists can determine if blood on a bumper is from a human or another animal.

*Biology Mobile Educator*

Review / Test prep activities
We can design fun, unique review sessions for nearly any topic using our programmable Spheros. (No prior programming experience needed.) Ask us for suggestions for your next review session!

*Biology Mobile Educator OR Chem/Phys Mobile Educator*

Spheros
Spheros are paired with a Kindle Fire (provided) through the SpheroEdu app. Beginners can draw a path for the Sphero robot to follow, intermediate users can drag and drop blocks of code, and advanced users can write text programs using JavaScript. Provide your own activities, or use one of the SpheroEdu prepared modules aligned to NGSS, CCSS, and various state standards.

Thin Layer & Paper Chromatography
**Analgesics:** Students run TLC on acetaminophen, aspirin, and caffeine. They then identify 3 unknown analgesics made from a mixture of the above.

**Ink:** Students run TLC on various inks to determine an unknown ink sample
**Lipstick:** Students run TLC on lipstick samples, then match an unknown sample to one of the knowns

**Marker:** Students use paper chromatography to separate the inks in markers, then identify an unknown marker

*Chem/Phys Mobile Educator*

We are always working on new activities to bring to your classroom. If you have any curriculum for which you do not see an activity, please let us know! We may be able to design one for you.
