Ursinus REU:

Exploration and Professional Excellence in the Mathematical Sciences

June 1–July 24, 2020

Students who participate will receive:

$3000 stipend

Travel allowance

Free on-campus housing

For more details and to apply, please visit ursinus.edu/REU.

Application Deadline: March 15

Research Areas

- Representation Theory of Lie Algebras
- p-adic Valuations of Sequences
- Computer Graphics and Geometric Signal Processing

Our site features three key components:

i. Important and accessible math and computer science research problems

ii. An Individual Development Plan (IDP)

iii. Our commitment to serving underrepresented students and students without other research opportunities.

Eligibility

U.S. Citizens and Permanent Residents who will be full time undergraduate students in Fall 2020.

⚲ Location

Ursinus College
601 E. Main Street, Collegeville, PA 19426
